

# Proud Supporter Logo

Community fundraisers may freely use a “Proud Supporter of” version of our logo. We have provided a vertical and horizontal option to best fit the space required.

## Size Guideline:

In order for the text in the logo to be legible, the tagline should not be less than 7pts.

# Logo Don'ts

If the logo is used against a colour or an image background, make sure that there is enough contrast for it to be legible.

If you are working with complex background imagery, please use our white background version of the logo.

When pairing with corporate logos the CAMPFIRE CIRCLE logo should have the same presence, either with the same height or the same width depending on layout. Use the  icon as a guide for the distance between the top and side of the logo lockup.

Please do not alter CAMPFIRE CIRCLE logos in any way. If your assets require use of our regular logo in other ways, pre-approval from our marketing team is required. Please connect via [info@campfirecircle.org](mailto:info@campfirecircle.org).
